Item numbers: See page 2

# DEFA PlugIn HP extension cables

PlugIn HP extension cables consist of an armoured, plastic coated and flexible "tube" that protects the wires from heat, outer mechanical and chemical stress and influence. They are available in various lengths, respectively with a male and female PlugIn HP plug in each end.

## Use & Installation

The main components in a DEFA professional system are linked together with PlugIn HP extension cables. These cables has PlugIn HP connectors that assures a safe and tight connection, and eliminates any connecting error. Ensure both locks (A) are in place.

## Specifications

### Item numbers:

465040	0.6m	465045	5.0m
465041	1.0m	465048	8.0m
465042	2.0m	465050	10.0m
465043	3.0m	465052	12,0m
465044	4.0m		

### Voltage:

250V

### Fuse:

20A

### Length:

2.5 / 5.0 / 10.0 / 15.0 m

### PlugIn HP IP rating:

6K9K

### Testing & acceptance

EN 50066-1, IEC 61984

DEFA AS is conforming to the requirements ISO 9001, ISO 14001 and ISO 45001. In addition to this, our engine heaters and cables are conforming to the requirements of IATF 16949.
